Subject: PSC Website Comments:

Dear Ms. Fleming:

I recently received notice from the PSC that Carolina Water Service, Inc. is requesting another rate increase. We were just subjected to new rate increases this past year and I was shocked to see them applying for permission to adjust rates once again. We already are bearing the burden of unusually high water and sewer rates in our area. I know many people spoke out at the meetings held last year about these high rates. I would urge the Commission to vote no as to their request. There is a limit to what homeowners can afford to spend on one of the most the basics of life – water!

I would also like to know the status of the audit that was to be performed on Carolina Water Service. I tried to search the PSC website and was unable to find a concise answer on whether that had been completed and the outcome of the audit. I would appreciate your assistance in this matter.

Thanking you in advance for your time and attention.

Sincerely,

Dianne Kraxberger
